

Warm up
Identify and label
each special triangle

Switching forms

a) 56° to radians

b) 90° to radians

c) $\pi/4$ to degrees

d) $2\pi/5$ to degrees

Coterminal angles: angles that share the same terminal and initial side

Find one positive and one negative coterminal angle for each value

$$\frac{2\pi}{3}$$

$$\frac{2\pi}{5}$$
